To Whom It May Concern,

I am writing to offer my highest recommendation for Kaycee Vosberg, a graphic designer whose exceptional skills and dedication have been invaluable to Fortress Athletics, LLC. As the owner of Fortress Athletics and the state chair for our federation in North and South Carolina, I have had the pleasure of working closely with Kaycee for the past three years, both in my capacity as a coach and as an event director.

Kaycee joined our team initially as an athlete, but her remarkable talent in graphic design quickly became apparent. Recognizing her skill, I invited her to take on the graphic design needs for our team, and she has since been instrumental in crafting our branding, event artwork, apparel designs, and marketing images for social media. Her work has consistently demonstrated not only creativity and technical expertise but also a deep understanding of our vision and values.

In addition to her impressive design capabilities, Kaycee has made significant contributions to our community. Her efforts have been pivotal in our fundraising campaigns, helping us raise nearly $20,000 over the past three years for Special Needs strength athletes and victims of domestic violence. Her artwork has become a symbol of goodwill and support, reflecting her commitment to making a positive impact.

Kaycee is more than just a talented artist; she is a dedicated and loyal team player. Her work ethic, combined with her ability to exceed expectations, has made her an essential part of our success. She is a true partner in realizing our goals and has consistently delivered work that surpasses our highest standards.

I am confident that any organization would benefit greatly from Kaycee's expertise and passion. She will undoubtedly add significant value to any team fortunate enough to work with her.

Sincerely,

Liz Strain
